

Axel America and the U.S. Election Race

Andy Luke

A side-splitting tale of media, politics and domesticity caught in conspiracy's web.

Axel America is the cult broadcaster behind online news network, Truth Live. He is a patriot with vital questions. When his foe, ex-Faux News presenter Morgan Rump runs for President, he has plans for Axel in his New World Order, and Axel's children, who have decided to teach Daddy a lesson.

The debut novel by the author of *Absence*, *Axel America* is a rip-roaringly funny trip down the Illuminati rabbit-hole.

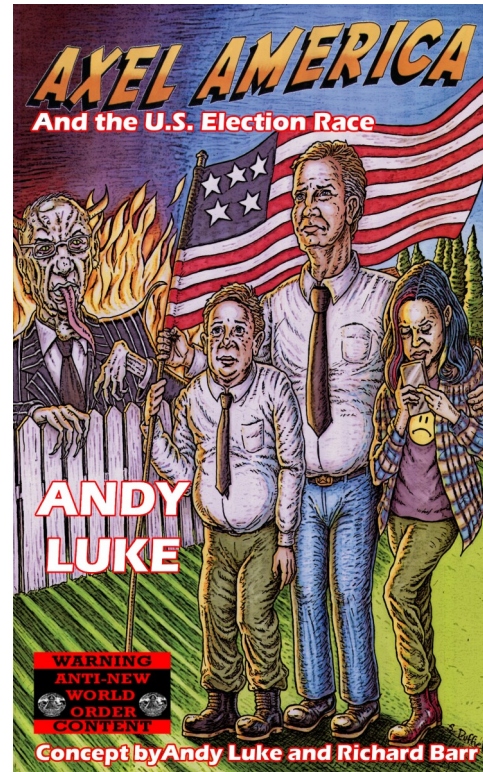

Key Selling Points

POS bookmarks and posters on request.

Belfast launch TBA, and reading at Titancon 2016

Promoted extensive podcast tour incl. Downbelow, The Last Word, ComicCityCast and Authors Talk About It.
